A request from **Marion County (Marion County Road Department)** for relief from the requirements of **55.20 Marion County Sign Ordinance**. A public hearing will be held for the matter of:

The variance request to the setback requirements of the Marion County Outdoor Sign Ordinance 55.20. The request is to allow the sign placement directly on the right-of-way instead of the required seventeen and one-half (17 ½) feet behind the right-of-way.

The Marion County Road Department sign would be adjacent to the right-of-way line. The required seventeen and one-half (17 ½) feet setback would put the sign behind the fence and other infrastructure that would obstruct the view of the sign.
